WHY APPLY TO OPIT?

"OPIT helped me truly feel and see the sheer power, beauty and privilege to both witness and help create the wave that is positive and impactful change no matter where we find ourselves in the world.

- Kentina S. Armenia 2018"

"This program helped me learn more about working in a professional setting. I brainstormed advertisements for English-speaking consumers, practiced my translation skills, and was exposed to start-up culture. It was really beneficial and eye-opening for my intercultural professional development and exposure to the business world through my second language.

- Cydnie D. Russia 2018"

"I see this internship experience as invaluable career experience. Not only am I benefiting from my experiences - from direct contact with people to practicing my language skills - but my coworkers seem to enjoy the English help and having the opinion of a young person in the workplace.

- Savannah M. Moldova 2019"

"The FabLab has sparked new ideas in me and allowed me to see those ideas through, which has resulted in a wonderful and rewarding experience.

- Bryson F. Russia 2019"
